Spring Volunteers:

We were fortunate to be able to have students from Fresno City College volunteer their time to help in our office, boutique, inputting words into our word games and writing stories. The volunteers get credit for their class in Human Services and Social Work to be able to graduate and gain experience for their future careers. Danger Aware also has a volunteer of the week:

This week it is **Crystal Lomeli**, wife and mother of three. Her departure is in May 2023. Her time is all-enjoyed going to the gym and meeting many people volunteering at Danger Aware and hopes to keep these friends after her time with us is done. She says she loves volunteering at Danger Aware and has learned many

she is a student at Fresno City College and is currently in pre-social work, she expects to graduate with her family and school. She spends time with family and friends. Three Facts About Child Abuse:

1. For every incident of child abuse or neglect that's reported, an estimated two incidents go unreported.
2. Child abuse occurs across all socioeconomic levels, ethnic and cultural lines, religions and education levels.
3. Neglect, the most widespread form of child abuse, makes up more than 59% of abuse cases.

Danger Aware is a nonprofit organization, any monetary donations will be greatly appreciated to help us with our mission to inform the young and the vulnerable about the dangers of abuse.
