POLLEN PICKER

This is the new game on our website and it's called "Pollen Picker". You can see that it involves RowJoeBee. The object of the game is to move RowJoeBee thru different obstacle courses picking up pollen for FancineBee who is the queen Bee. The first three courses are easy because you are trying to beat the clock. But starting on the 4th obstacle course there is a blue bird named Swifton, who is trying to catch RowJoeBee so he has to try to out fly the bird on the courses.

RowJoeBee has a friend that is a cat, Miss Kitty, who hates when there is a bully around chases the bird away from RowJoeBee. As she is doing that it gives RowJoeBee more time to gather up more of the pollen that he could and makes it out of the course before the bird starts to chase him again.

This is a game that you can play on your lap top/computer. You will need to use your up, down and side keys to move RowJoeBee around the course. This game is very challenging game. You will need to concentrate on how to move RowJoeBee without losing your lifelines or your time runs out.

So Good Luck and enjoy playing the game! You can find it on our web site at
